GMC ENVOY FEATURES & OPTIONS – Safety

Front/Side Air Bags*:

Standard front and available side air bags help protect the driver and front passenger. Envoy also offers three-point safety belts in all occupant positions.

Four-Wheel Disc Brakes with ABS:

Standard ABS helps maintain steering control during hard braking, while four vented discs offer impressive braking power.

Available OnStar®†:

Activated with the push of a button or automatically in the event of air bag deployment, OnStar pinpoints your location using global positioning satellite technology and can contact a nearby emergency service provider, like the police or an ambulance.

*Air bag inflation can cause serious injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat. See the Owner's Manual for more safety information.

†One-year OnStar Safe and Sound service agreement required. Call 1-800-ONSTAR-7 or visit www.OnStar.com for system limitations and details.
