Turning diameter, curb-to-curb, ft.	38.3	38.3

GMC YUKON SPECIFICATIONS — Wheels

Wheels, 4 - 16" x 7" (40.6 cm x 17.8 cm) 6-lug bright machined aluminum, includes steel spare (aluminum with 3rd row seat)

Wheels, 4 - 17" x 7.5" (43.2 cm x 19.1 cm) 6-spoke premium aluminum, includes 16" x 6.5" (40.6 cm x 16.5 cm) steel spare

GMC YUKON SPECIFICATIONS — Trailering

Automatic Transmission Ratings with Ball Hitch

Model	Vortec 4800 V8		Vortec 5300 V8	
	Axle Ratio	Maximum Trailer Weight lbs.	Axle Ratio	Maximum Trailer Weight lbs.
2WD	3.42	5,700	3.42	6,700
	3.73	6,700	3.73	7,700
4WD	3.73	6,400	3.73	7,500
	4.10	7,400	4.10	7,800

Maximum trailer ratings are calculated assuming standard equipped vehicle, driver and required trailering equipment. The weight of option equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. 10 to 15% of the trailer weight is the recommended trailer tongue load.

GMC YUKON FEATURES & OPTIONS — Standard Equipment

Wipers, intermittent, front, wet-arm with pulse washers	S	S	S

GMC YUKON FEATURES & OPTIONS — Safety

Daytime Running Lamps and Fog Lamps:
Daytime running lamps — activated when shifting out of park - help to make you more visible to oncoming traffic. Halogen composite fog lamps are also standard.

Disc Brakes/ABS:
Large discs and brake pads provide impressive braking power and minimal brake fade. Standard ABS helps you maintain steering control under hard-braking situations. Recent refinements yielded even more powerful braking capabilities and enhanced braking feel at the pedal.

Door Beams:
To minimize severe intrusion into the cabin in a side impact, Yukon features sturdy steel door beams. They're designed to deform in a progressive, controlled manner and absorb impact energy.

Driver's Information Center:
The Driver Information Center includes fingertip controls for monitoring over 30 vehicle functions.

Electronic Traction Control System/Autotrac®:
Four-wheel-drive Yukon and Yukon XL models feature Autotrac, which automatically engages four-wheel drive when needed. 2WD models feature an available Electronic Traction Control System for enhanced traction.

Front Recovery Hooks:
Two front, frame-mounted recovery hooks.

HomeLink*:
Available HomeLink allows you to program up to three different signals to operate items such as a garage-door opener, home lights, or electric gate.

Hydroformed Front Rails:
Hydroformed technology uses highly pressurized water to form the steel. This allows the steel to be bent without reducing wall thickness, maintaining strength and increasing overall structural excellence. Front and rear sections of 1/2-ton models are hydroformed; the front section 3/4-ton model is hydroformed.

Large Mirrors with Puddle Lights:
Outside rearview mirrors are power-folding, heated, with ground illumination, and feature an optional turn signal in the glass.

LATCH system†:
All Yukons include the LATCH safety system on 2nd row seats. LATCH, which stands for "lower anchors and top tethers for children," uses a top tether strap anchor and two lower anchors located between the seatback and bottom cushion to secure compatible child safety seats without using the safety belt. The LATCH system helps make buckling kids easier and more secure.

Limp Home Mode:
In the event of overheating, the engine automatically enters the Limp Home mode. The engine begins operating on alternating banks of cylinders and uses air to cool itself in order to get you safely to a repair center.

OnStar®:
OnStar with a one-year Safe and Sound service plan§ offers services dedicated to your safety and convenience. And with additional services available such as hands-free Personal Calling and Virtual Advisor** for stock quotes, e-mail and weather, OnStar is sure to increase Yukon's agility, as well as your own.

Safety Belts and Passenger-Sensing Air Bags††:
Primary safety devices are the three-point safety belts in all seats in the 1st and 2nd row and the dual front and the side impact Air Bags.2 A new airbag suppression system automatically disengages the passenger-side air bag to protect children and small adults.

StabiliTrak®:
Available on 1/2-ton Yukons and Yukon XL, the system senses your steering wheel position, vehicle speed, brake pressure, lateral acceleration, and turning rate to and adjusts the engine speed and brake pressure to the front wheels to help keep you on your intended path.

Steering Wheel Controls:
Available eight-button steering wheel controls provide redundant audio controls and access to features such as the Driver Information Center and OnStar® so you can keep your eyes on the road.

*Operation of some HomeLink universal transmitter system features may require the purchase of a receiver from HomeLink.

†NOTE ON CHILD SAFETY: Always use safety belts and proper child restraints, even with Air Bags. Children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information

§One-year OnStar Safe and Sound service agreement required. Call 1-800-ONSTAR-7 or visit www.OnStar.com for system limitations and details.

**OnStar Personal Calling and Virtual Advisor are available at extra cost and only in select markets. Personal Calling and Virtual Advisor require OnStar Personal Calling enabled vehicle, existing OnStar service and prepaid calling minutes. Call 1-800-ONSTAR-7 or visit www.onstar.com for system limitations and details.

††Air Bag Off Switch for use when carrying children. Always use safety belts and proper child restraints. See the Owner's Manual for more safety information.
