HANDLING

The advanced Electronic Stability Program (ESP) is the equivalent of Crossfire's equilibrium, helping to maximize available traction and vehicle stability.

ENGINE

Crossfire's 3.2-liter SOHC 18-valve V6 engine produces a healthy 215-horsepower, with 98% of its peak torque available between 3,000 and 4,500 rpm.

PREMIUM CARE PLAN

Purchase or lease a Chrysler Crossfire, and you automatically receive the Chrysler Premium Care Plan, including a NO CHARGE complimentary loaner vehicle anytime your vehicle requires service during the first three years or 36,000 miles.*

* The Chrysler Premium Care Plan compliments the standard limited warranty and is still transferable to subsequent owners.

AERODYNAMICS

With a sculpted body and fine-tuned lines, wind resistance becomes a lesson in futility.

EXTERIOR DETAILS

From its ribbed hood, to its tapered boat tail, Crossfire rekindles America's age-old love affair with expressive automotive design.

INTERIOR DETAILS

Crossfire's emotive exterior is perpetuated on the inside, creating a sanctuary of expressive design.

AVAILABLE SEAT COLORS

The sumptuous, hand-stitched leather-trimmed seating features a high-back, bucket seat design available in three different color schemes.

1. Dark Slate Gray and Cedar Two-tone
2. Dark Slate Gray and Medium Slate Gray Two-tone
3. Dark Slate Gray Monotone

For more information, please visit www.chrysler.com/crossfire

SOUND SYSTEM

With features like speed-sensitive automatic volume control, the 240-watt Infinity® Modulus® Sound System is as sophisticated as Crossfire itself.

- AM/FM stereo radio with single CD player features intuitive controls and advanced features
- Speed-sensitive automatic volume controls automatically adjust volume to compensate for increased vehicle noise
- Automatically seeks out and stores radio stations with the strongest signals
- Six-channel 240-watt amplifier
- Two 6.6" mid woofers, two 1.5" tweeters mounted in the doors and two 6.6" subwoofers in the bulkhead behind the seats

POWER FEATURES

One-touch power windows and power door locks are rivaled only by the convenience of an automatic electrochromic rearview mirror which reduces glare from following vehicles' headlights.

CLIMATE CONTROL

Crossfire features a Dual-Zone Semiautomatic Temperature Control that allows the driver and front passenger to select and maintain their own comfort level.

SERVICE SYSTEM

Crossfire helps drivers conveniently monitor vehicle service needs by automatically calculating the distance to its next service based on your driving characteristics, operating conditions and oil quality. This distance appears in the instrument cluster display and is shown when the vehicle is started.

STORAGE

A 3-piece set of custom touring luggage donning Crossfire styling cues, is designed to fit specifically in the cargo area. Included following your purchase of Chrysler Crossfire. The center console, side pockets and glove box provide ample space for cell phones, CDs and of course, a fancy pair of driving gloves.

TIREFIT

To deal with a punctured tire, Crossfire is equipped with the Tirefit tire service kit, consisting of a can of puncture sealant and portable air compressor. Eliminates the need for a spare tire, resulting in added cargo space.
