¹ XM® Satellite Radio requires XM subscription sold separately after first three trial months. All fees and programming subject to change. Subscriptions subject to Customer Agreement available at xmradio.com. XM service only available in the 48 contiguous United States. The XM name is a registered trademark of XM Satellite Radio Inc.

² Factory-installed option. Never program when driving. GPS mapping may not be detailed in all areas or reflect current road regulations.

³ The RearView Monitor is a convenience but is not a substitute for proper backing procedures. Always turn and check that it is safe to do so before backing up. The RearView Monitor may not detect every object behind you.

⁴ Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your owner's manual for more details.

⁵ VDC cannot prevent accidents caused by abrupt steering, carelessness, or dangerous driving techniques. Always drive safely.

⁶ Tire Pressure Monitoring System is not a substitute for regular tire pressure checks.

⁷ The Lane Departure Warning/Lane Departure Prevention systems operate above approximately 45 mph and only when the lane markings are clearly visible on the road. They will not prevent loss of control. See your owner's manual for more details.

⁸ IBA is not a collision avoidance system. It may not provide warning or braking in certain conditions. Never rely solely on IBA.

⁹ Forward Collision Warning cannot prevent accidents due to carelessness or dangerous driving techniques. Always drive safely.

⁴ For vehicles sold in CT, available Around View Monitor is only operable while the vehicle is in reverse. The available Around View Monitor is a parking aid and cannot completely eliminate blind spots or warn of moving objects. Always check your surroundings before moving the vehicle.

⁵ Cargo shown for display purposes only. Infiniti recommends that all loose items be secured when transported. Heavy loading of the SUV with cargo, especially on the roof, will affect the handling and stability of the vehicle.

⁶ When towing at or near Maximum Trailer Weight, the allowable vehicle cargo and/or number of passengers is reduced because it is necessary to stay below the Gross Combined Weight Rating and the Gross Axle Weight Rating. See your Infiniti Towing Guide and owner's manual for proper use.

⁷ Some accessories may require installation, which is not included in the Manufacturer's Suggested Retail Price (MSRP). Retailer sets actual price.

* High-friction brake pads are standard equipment on the FX50 with Sport package. These brake pads are designed for high-performance driving with a higher coefficient of friction on the rotors that provides superior pedal feel and improved fade resistance in severe braking conditions. Depending on your driving habits, you may experience increased brake dust and noise as well as faster wear of the brake pads and rotors resulting in more frequent replacement of these components.
